ORDERING INFORMATION

OUR MISSION STATEMENT

"Mohawk's policy is to consistently provide products and services at a level of quality that meets or exceeds the expectations of our customers."

We expect to be the standard of quality for our industry.

ORDERING INFORMATION & TERMS

Payment Method:

We accept Visa, MasterCard or American Express.

Open Credit:

Open credit is extended to accounts that complete a credit application and are approved by our credit department. No open credit will be allowed without a signed, completed credit application and approval of the credit department. **Your order will be shipped promptly upon a favorable credit determination.** On open accounts, our terms are Net 30 Days from the date of shipment. Sales tax will be added where required unless a tax exempt certificate is on file. **There will be a charge of \$35.00 for all returned checks and the account will then be placed on prepaid terms only.**

How To Order:

Phone: 800-545-0047 - Fax: 800-721-1545

Email: orders@mohawk-finishing.com

On-line using your Mohawk account number

No Minimum Order Volume

Shipping and Handling (Continental U.S. only):

Freight charges are estimated on your order. Once shipped, actual freight cost and any applicable hazmat fees will be added to your invoice.

Orders shipped UPS/FedEx Collect or Third-Party Billing are subject to a \$10.00 Handling fee.

Orders under \$85.00 are subject to a \$10.00 handling fee.

Actual freight does not include additional carrier accessorial fees, i.e., lift gate, redelivery fees, or residential fees and will be invoiced to you by the carrier or Mohawk Finishing Products separately.

Orders to **Alaska & Hawaii** require special handling and expedited shipping (2nd Day or Overnight service). Please contact Customer Service for a freight quote for orders shipping to Alaska or Hawaii.

Note: Custom product orders require additional production time. Therefore, custom orders will be processed separate from stock orders and are subject to separate freight charges.

For customer service issues, please contact:
cs@mohawk-finishing.com

Backorder Policy:

Back ordered items will be shipped as soon as possible unless order states "Do not backorder".

Shortage:

Claims of shortage of materials or products must be reported within 10 business days of receipt of the order. Any deduction without authorization will not be allowed and will be carried as a balance due.

Damaged Goods:

Once received, we ask that you promptly inspect your order. Any damages to the cartons or packaging of your order that are visible upon receipt should be noted on the carrier's paperwork when signing for the delivery. All claims of visible and/or concealed damage (within the cartons) should be reported to Mohawk Finishing Products within 10 business days.

Return Procedures:

We make every effort to accurately ship your orders and commit to quickly correcting any error that may occur. All customer service issues are handled by the Customer Service Department.

1. Please notify our Customer Service Department of any questions. Our customer service representatives will do everything possible to satisfy your needs.
2. In order to answer your questions and serve you better, please have a copy of your packing slip and/or invoice when you call.
3. If a return is necessary, the Customer Service Department will provide you a return material authorization (RMA) number. This number must be marked on 2 sides of the carton(s) to be returned. Any merchandise returned without an RMA number marked on the carton(s) will be refused. Product being returned must be shipped via UPS or FEDEX. The warehouse cannot accept anything sent via US mail.
4. We must be notified of any shipping error within 10 business days. We cannot accept returned products under any circumstances after 60 days. All returns are subject to inspection.
5. All returns are subject to a 25% restocking fee and return freight charges with the exception of defective product or Mohawk shipping error.

Limited Warranty:

Mohawk Finishing Products shall not be liable for any injury, loss or damage arising out of the use or inability to use any item sold by us. Our only obligation in lieu of all warranties expressed or implied is to replace any item proved to be defective. The user must determine the suitability of the product for its intended use, and assumes all risk in connection therewith.

M102-0490 Gloss
M102-0492 Satin
M102-0493 Matte
M102-0494 Flat

Smooth Coat Lacquer

Spray a soft, silky, hand rubbed effect right out of the can. The slightly amber tone of Smooth Coat gives a rich patina as a clear natural topcoat finish and adds a beautiful richness to dyed or stained woods. Smooth Coat features quick dry, quick build, with exceptional flow-out and leveling.

- Perfect topcoat for interior furniture, small craft, carvings, antiques and architectural millwork
- Faster build (15.1% solids by volume, comparable to a spray gun.)
- Conventional VOC formulation aerosol - Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.
Applies to product(s) below.

M103-030 Satin

Clear Spray Shellac

A clear coating for furniture, floors, inside drawers and food cabinets. Shellac has unusually good adhesion to hard-to-grip surfaces. Hold out is exceptional on wood, plywood, and plaster. Recommended for spot sealing knot holes, sap streaks, and refilled areas before refinishing. Can also be used as a barrier coat over a silicone-contaminated area. Net Wt. 12 oz.

M102-0475

Flat Oil Finish

Designed for oil-walnut and teak finishes. Spray over spot repairs to reduce gloss so as to blend in with the sheen of the surrounding finish. Can be used to produce a simulated oil finish over a previously stained surface. Net Wt. 13 oz.

TONERS

Ultra® Classic Toner

Dye-based transparency with highest rating of light-fastness available for dyes.

- Excellent flow out, no overspray
- Mar and alcohol resistant

Solve flow-out problems associated with aerosol lacquer touch-up! Ultra® Classic Toners utilize a non-fading, non-bleeding dye to provide excellent clarity. Wood shades can be varied without imparting the "muddy" effect sometimes associated with pigment type toners. *Custom color matching available.* Net Wt. 13 oz.

SEALERS

Tone Finish Flat Easy Sanding Sealer

This low sheen sealer is recommended when working with flat or dead flat topcoats. Dries quickly and sands with ease. Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0484	Flat
-----------	------

Tone Finish Clear Lacquer Sanding Sealer

One of the most versatile products used in furniture touch-up. Fills in and levels surface scratches and burn-in repairs. Fast drying, easy sanding, high solids for rapid build-up. Seals in stains prior to final topcoat of finish for faster build up. Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0423

Pre-Catalyzed Sanding Sealer

Excels in flow-out, adhesion and hold-out. Fast-drying, resistant to yellowing. Leaves no halo on spot repairs. Recommended for use under Pre-Catalyzed Clears, Final Finish™ Clears and C.A.B. Production Topcoats. Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0413

Heavy Bodied Sanding Sealer

Used to repair light scratches, packing marks and light indentations. Heavy Bodied Sanding Sealer contains additional fillers to perform the repair in less time. Net Wt. 13 oz.

- Ultra low sheen, highly blush resistant
- Higher solids, higher build

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0491

Finisher's Choice™ Sanding Sealer

A high solids aerosol lacquer that eliminates the need to mix bulk finishes for your small refinishing and restoration jobs. Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0543

E-Z Vinyl® Sealer

E-Z Vinyl® Sealer aerosol is the perfect choice for spot repairs on kitchen cabinetry, furniture or millwork where improved durability, moisture resistance, and adhesion are critical. E-Z Vinyl® Sealer aerosol is a water clear, quick build sealer specifically designed for surface preparation under mid to higher sheen finishes. E-Z Vinyl® Sealer aerosol sprays with good atomization and flow and provides a flexible, moisture resistant surface when applied under all MOHAWK aerosol clear topcoats, especially the pre-catalyzed aerosol lacquers. Net Wt. 13 oz.

INSTRUMENT LACQUERS

Guitar Lacquer Toner

Guitar Toner Aerosols are used to add controllable, even color to the guitar. Made from fade resistant dyes, they apply transparent color so the beauty of the wood shows through, yet they are strong enough that several coats will create the dark sunburst effect that is so popular on guitars. Starcast Amber applies the basic light tone colors of the guitar. Encore Brown is used to tone the body sides of acoustic guitars, which are typically darker than the soundboard. The Encore Brown is also used to create a sunburst effect around the edge of the body of a guitar, whether acoustic or solid bodied.

AEROSOLS

INSTRUMENT LACQUERS

Stringed Instrument Lacquer

Just as our Stringed instrument Lacquer in quarts, this aerosol is formulated specifically as a high quality finish for thin, flexible tone-woods such as those used on stringed instruments, made to withstand the expansion and contraction that is characteristic of the unique construction of stringed instruments. Vinyl Sealer is also flexible by nature. Therefore, it is the only sealer that should be used under Stringed Instrument Lacquer. This combination yields great sound and empowers luthiers to finish their handiwork with confidence.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M113-1406 Net Wt. 13 oz.

SPECIALTY

Shadow Toner

Easily add color to a repair or a finishing project by using Mohawk's Shadow Toner. The Shadow Toner is made with micro fine, non fading pigments and high quality lacquer. This aerosol will add color to your project without a muddy appearance. Apply Shadow Toner to your project to correct the color, add color or to help hide a repair. Adjustment of sheen is achieved with a clear topcoat lacquer. Net Wt. 13 oz.

- Superior flow out, subtle blending
- Good clarity, no overlap marks
- Fine atomization of color

- M984-7006** Fill-One Pre-Charged Aerosol Can - Stains & Glazes

TOUCH UP ITEMS

AEROSOL FILLING SYSTEMS

Fill-One Manual System

Enjoy the same benefits as our standard Fill-One but inject the stain or coating into a pre-charged aerosol can using a manual crank instead of a compressor. Filling takes seconds and you'll NEVER have to clean the machine.

High-quality aerosols offer real convenience that lends itself to time and cost-savings benefits for professional repairers.

- No cleaning after filling aerosol cans
- Seconds to fill with no loss of product
- Compact system - about the size of a coffee maker
- Stain or coating is permanently sealed into the cap, serving as a color indicator
- No compressor required - simple, hand crank operation
- Safe and surefire - no guessing about the number of strokes
- Includes mounting plate

Pro-Mark® Marker

The Pro-Mark® capillary marker features excellent flow. Whether you

need to touch-up 1 inch or 20 feet, the Pro-Mark® Marker does it the first time and everytime. The colors are the most fade resistant, the most resistant to color shift from topcoating and have the best bleed resistance. The nib offers superior flow along with the durability needed to do all normal repair work. Marks equally well with the edge, the bottom or the tip. Good adhesion to most surfaces and resistance to polishes are built into the Pro-Mark® Marker. *Custom color matching available.*

TOUCH UP ITEMS

TOUCH UP MARKERS

Background Marker Touch-Up

The Background Marker

Touch-Up dispenses a thin, fast drying, low sheen film

to replace background color over fills, glue lines, dark areas in raw wood, and other stains. Indispensable for touch up on MDF, particleboard, and other very absorbent substrates, which go dark with other types of markers. Color band on markers to aid in identifying correct colors.

Artisan Glaze Marker

The new Artisan Glaze Marker is used to create glaze lines on a glazed cabinet or furniture part. This Artisan Glaze marker can be used to add to or alter an existing glaze line. This new marker formulation allows you to apply the glaze line to the part and then work the line to blend in to the surrounding glaze effect. This touch-up marker was designed to be the same strength as a light glaze, dry slowly, which enables you to work the color once it is applied to the part

Artisan Glaze Marker - Continued

and build color over itself. You can add, alter or create a glaze line over a finish using this marker. This marker is designed to be used in the field, shop or factory settings.

- Can be used during or after your finishing process
- Can be used to create or touch-up existing glaze lines
- Custom colors available

TOUCH UP MARKERS

Fillable Marker

Mohawk Fillable Markers are made of the same quality as our standard valve markers. The Fillable Marker will come with components to complete 6 markers. Included are 6 tubes, 6 valves with Acrylic Chisel Point Nibs (M290-1001), 6 Polyester Chisel / Bullet Point High Flow Nibs (M290-1003), 6 labels, and 6 agitator balls.

M269-0006

Ultra® Bond Waterborne Clear Finish Marker

Mohawk Ultra® Bond Waterborne Clear Finish Marker produces a durable, chemical resistant, water clear finish for use on flooring, cabinets, furniture and many other surfaces. Has excellent adhesion on most hard to adhere to finishes such as urethane, UV and aluminum oxide. Blends well into the surrounding area providing a nearly invisible repair. A truly multi-purpose topcoat for those small repairs and finishing needs. Low odor and fast drying.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M292-0020	Matte	M292-0040	Satin
M292-0060	Semi-Gloss	M292-0080	Gloss

Match-All™ Stain Marker

The Match-All™ Stain Marker can be used for highlighting doors, to touch up nicks and scratches on crown molding, wood floors, cabinetry, furniture and any other stainable wood surface. Just add your own water, oil or lacquer based stain. You can use your own stain colors for a perfect match! The Match-All™ Stain Marker is not recommended for dye type stains.

Replacement Nibs - 12/pack

M290-1001	Acrylic Chisel Point
M290-1002	Acrylic Bullet Point
M290-1003	Polyester Chisel/Bullet Point, High Flow

Ultra® Fine Grainer

For replacing grain and distressing marks over spot repairs on all types of furniture and cabinets.

- Produces extra fine grain lines
- New nib design with continuous flow
- Easier than brush application
- Top coat with any Mohawk finish

M265-0101	Lt. Oak GP9
M265-0301	Med. Brown GP8
M265-0401	Dk. Brown GP7
M265-0501	Black GP6

Brush Tip Markers

Features a micro brush tip applicator. This revolutionary marker and tip allows you to apply color exactly where it is needed without any messy powders, fluids or odors. This is the perfect color tool for service technicians, shop technicians or factory line technicians. This is simply the easiest marker that you will ever use!

- Use to add grain lines or alter the color of a Fil-Stik® Putty Stick, Quick Fill® Burn-In Stick, PlaneStick® Burn-In Stick or E-Z Flow™ Burn-In Stick
- Add color to small sand thru areas on a face or edges of a wooden part
- Add or alter color in any small defect

Features

- Clear crisp colors that hold a thin line
- Low to no odor, easy to use, teach and learn
- Quick and easy application, no messy powders

TOUCH UP & FILLERS

TOUCH UP PENCILS

Graining Pencils

The graining pencil is an artist pencil with soft, thick cores to create a smooth color lay down for superior blending and shading. The pencils can be used to add color or grain lines over raw wood, finished wood, Mohawk Epoxy Sticks and Bondo® Wood Filler. The color of the pencils will not bleed or change when top coated. Recommended on production line touch-up stations since color can be replaced along moving line. Absence of liquid eliminates drying time.

M270-1400	Assortment (Includes all 14 colors)
M270-0901	Warm Grey
M270-0902	French Grey 70%
M270-0903	French Grey 90%

Shading Pencils

Employed for antique distress markings and to simulate grain effects on spot repair work. Paper wrapped with string pull out making sharpening unnecessary. A protective coating should be sprayed over the area.

M271-0001	Black	M271-0003	White
M271-0005	Red Brown		

BLEND-ITS

Blend-Its

A liquid filler and topcoat used to repair minor surface scratches, replace finish and to lock in other types of repair work. Adheres to most materials or finishes. Fast drying Blend-Its can be used on all finishes without fear of damaging the finish. Each jar comes with a brush attached to the cap for quick and easy application. 1/2 oz. jars.

PUTTY & FILLERS

Burn-In Balm™ Paste

Prevents unwanted spread of excess E-Z Flow™ Burn-In Stick or Plane Stick® Burn-In Sticks from adhering to the surrounding area as they are removed. Speeds production and minimizes sanding.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M401-1203	4 oz.	M401-1206	Quart [∞]
-----------	-------	-----------	--------------------

[∞]Discontinued - Available while supplies last

E-Z Seal Pen

Prevents glossy look of burn-ins under low sheen topcoats. Good solvent hold out. Fast drying and easy to use.

M295-0001	M264-1004	Replacement Nibs
-----------	-----------	------------------

Burn-In Sealer

A clear protective coating sprayed over a “Burn-In Stick” repair to eliminate “bright spots” (halo). When a gloss, satin or flat finish is applied over Burn-In Sealer, the repaired area will blend in with the sheen of the surrounding finish without glossing up.

Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M103-0467

PUTTY & FILLERS

Fil-Stik® Putty Sticks

Semi-hard putty sticks used to fill in nicks and scratches or open corner joints. Can be protected with Tone Finish aerosols or other coatings. No heat or special tools required, simply rub in and wipe off. *Custom color matching available.*

Hard Fill

Hard Fill is made from a blend of hard waxes and is used to repair minor and medium defects in wood and rigid plastic. Recommended for repairs on floors, tops, fronts, sides, doors, drawers, any wood surface.

- Easy to learn and use
- Excellent for dents
- Little to no sanding
- Good for all sheens
- Builds finish quickly
- Safe for any finish
- Works for any sheen

Wood Filler

Mohawk Wood Filler is a water-based premium grade, solvent free filler that sets firmly to all wood surfaces. Mohawk Wood Filler offers minimal shrinkage and will not crack or fall out. Wood Filler accepts most stains, tints or finishes and all finishing operations; painting, staining, sanding, drilling, sawing and lacquers. Ideal for edge veneering and woodgrain filling.

- Quick drying
- Sands easily
- Minimal shrinkage
- Easy clean-up
- Indoor / outdoor use
- Freeze / thaw stable

M741-0025	Alder / Cherry 16 OZ.
M741-0035	Natural Maple 16 OZ.

Grain Filler & Solvent

For all types of open grain wood to fill and level the surface. Mohawk Grain Filler is a heavy paste high in solids for improved fill properties. Easy to apply and provides excellent adhesion for finish coats. May be finished with lacquer, varnish, acrylic, or shellac finishes. Drying time is critical (see label). Adjust dry time by diluting with Mohawk Grain Filler Solvent.

Wood Filler & Cream Hardener

Bondo® Wood Filler can handle any wood repair ranging from the smallest to the largest of projects; filling in minor furniture damage or rebuilding a missing piece of wood.

When the filler and hardener are mixed, a reaction occurs which allows the filler to chemically bond to the repair surface and allows the product to cure quickly and adhere permanently. For more advanced repairs, the filler can be applied in layers to rebuild rotted or missing pieces of wood. Bondo® Wood Filler is water resistant and will not shrink. You can make professional, great looking repairs.

- Professional strength two-part wood filler designed for interior and exterior use
- Stainable and paintable
- Non-shrinking and water resistant
- Easy to sand in 15 minutes
- Chemically bonds with surface for permanent solution

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

Knot Filler Kit - Compact

The compact Knot Filler Kit is ideal for small shops, hobbyists and DIYers. You have all the necessary tools at hand to get started and make perfect Knot Filler repairs. Suitable for window and floor installers, carpenters, maintenance people, etc.

M319-6031

Contents:

Knot Filler Gun	Knot Filler Cooling Bricks
Knot Filler Chisel	2 Compact Bags/
5.9" Mix Packs	Knot Filler Saver
Knot Filler Color Chart	

Knot Filler Cooling Iron

For pressing liquid Knot Filler into the knot and for quick cooling. The metal is aluminum and the handle is made from plastic.

M319-6004

Knot Filler Chisel

For cutting off excess Knot Filler. Beech handle with a blade made from steel. A sharp tool with good grip.

M319-6002

Knot Filler Saver

When you use Knot Filler it is sometimes necessary to change color, which means you need to empty the heating gun for Knot Filler. In order to minimize waste we have introduced the Knot Filler Saver that makes it possible to build new Knot Filler sticks of excess Knot Filler that otherwise would go to waste. The Knot Filler Saver is a tool that allows you to make new sticks, which you can save for use later. Make sure to seal the new sticks tightly in a bag, so they are not exposed to air.

M319-6030

PUTTY & FILLERS

Fil-O-Wood™ Wood Putty

Extra fine textured, water-base wood putty for holes, corner chips, cracks, screw holes and other defects. Will accept stain or finish in a manner similar to natural wood surrounding the defect. No strong solvents.

Will not harm existing finish, can be sanded dry or wet.

Once dry, Fil-O-Wood™ Wood Putty is shrink free, mar resistant, and has excellent adhesion. Recommended for both finishing and touch up repair systems where time is not of the essence or where hole is too large for filling with a Mohawk Burn-In Stick. Blendal® Powders can be intermixed with Fil-O-Wood™ Wood Putty to achieve additional shades. Can be sawed, drilled or carved.

BLENDAL® STICK – COLOR BLENDING

Matching colors for touch up requires a basic understanding of color theory. Normally, it will be necessary to blend 2 or 3 colors together to get an accurate color match. The normal wood panel has a color scheme consisting of a foreground, background, and grain color. The following is a list of intermediate wood tone colors; these are the primary colors of the wood industry:

- Cordovan - Violet Brown
- Burnt Sienna - Orange Brown
- Raw Umber - Green Brown
- Burnt Umber - Red Brown
- Raw Sienna - Yellow Brown
- True Brown - Neutral Brown

There are two basic techniques to replace color; color blending and color layering. When color blending simply draw several streaks of various colors (use colors matching background, foreground and grain colors) then lightly blend colors together to create a natural wood grain pattern. When color layering simply draw streaks of the background, smear color lightly then topcoat with a clear aerosol. Repeat this process with a foreground color and then a grain color each time duplicating the color and grain pattern.

Colors that appear opposite each other on the color wheel will neutralize each other and bring the resulting color to the middle of the wheel, which is a neutral brown.

Note: Colors directly across from each other are complementary colors and when blended together will develop a “brown tone”.

Black and White are used to darken or lighten colors and are not considered true colors.

Sand Thru Sticks

Sand Thru Sticks are used to add color to light edges or white edges due to sanding through a finish during the finishing process. This stick will not only add color but it can also fill in small imperfections on the edge. The Sand Thru Stick is very easy to use, simply rub the stick along the light edge to add color, blend the edge with a rag and then finish with your normal process.

- Hard wax square stick,
- Fill “small” defects in the edge
- Designed to be used off line or on line (hanging line)
- Quick and easy to use
- Can be used during or after your finishing process
- Must be top coated
- Custom colors available

Two Minute Touch-Up™ Brushing Liquid & Solvent

A brushing type clear liquid used with Blendal® Powder Stains for spot brush touch-up and coloring edges. Stays wet on the brush, dries in minutes on the repaired surface. A must in every finisher's kit for use in areas where the "padding" method is not practical. To lay the color flat without build up use with Two Minute Touch-Up™ Solvent.

Available in quarts.

M440-0006 Brushing Liquid

PADDING FINISHES

Finish-Up™ Polyurethane

LOW VOC 380 g/l

A user friendly wipe on finish. Finish-Up™ Polyurethane can be applied over repairs such as Burn-Ins, Fil-Stik® Putty Stick fills, Blendal® Powders and Touch Up Markers to seal in the repair, leaving a durable protective finish. Can be applied over properly cleaned existing finishes to improve appearance and durability. Finish-Up™ Polyurethane adheres well to most types of lacquers, vinyl clads, high pressure laminates as well as many other substrates. Best of all, it is water based and has almost no odor. This feature makes Finish-Up™ Polyurethane the product of choice where aerosols and other solvent based touch up finishes are not appropriate.

- Easy wipe on application
- Good flow characteristics
- Moisture & alcohol resistant
- Excellent adhesion
- Will not lift other finishes
- Quick drying
- Good durability
- Water clear
- Low VOC
- Nonflammable

Graining Liquid

Balanced clear liquid formula for applying grain or base color in spot repair work. Unlike regular "padding agents", Graining Liquid stays wet on the brush longer. This feature allows the user more time to complete a repair. Mix with Blendal® Powder colors on any non-absorbent surface.

Apply grain with style 149 or 50 brush.

M403-0004 4 oz.

M403-0006 Quart

Wil Pro™ Padding Finish

The choice of the experts. One of our most popular French finishes. Super-fast dry. May be coated with lacquer immediately. Lowest build-up of any French finish on the market. The best finish for French polishing. Use with Blendal® Powder Stains. Excellent where clarity and minimum build-up are critical. Ready to use; no oil or additives are required. Very print resistant. Used for removing packing marks and mars on fine furniture. May be used on the very lightest of finishes with no discoloration. Formulated especially for the professional touch-up artist.

M405-2006 Quart

Lac French™ Padding Finish

The yardstick by which all other French padding finishes are measured. Used by thousands of repair technicians for many years. May be coated with lacquer immediately. Lac French™ Padding Finish is a very light amber color, suitable for use on the lightest of finishes. Ready to use. No oil or any other additives required. A formula perfected over the years for just the right build-up. Dries harder than any other french padding finishes on the market. Use with Blendal® Powder Stains. For best results, use trace cloth for application.

M405-2506 Quart

PADDING FINISHES

PADDING FINISHES

Rapid Pad® Padding Finish

Repairs packing marks or extensive scratches (where a whole surface needs repair) "French Polish" padding finish applied over an original finish for restoration, rejuvenation, protection and repair of surface finish defects. Formulated to flow freely while "padding" out an entire surface. Most recent formula improvements have increased durability, mar and blush resistance.

- RESTORATION - makes worn furniture look factory new again
- REJUVENATION - add new life to old finishes, antiques, etc.
- PROTECTION - new hard finish resists mar and abrasion
- FINISH DEFECTS - eliminates surface scratches and packing marks

M420-0006 Quart
M420-0007 Gallon

Lacover® Padding Finish

For spot refinishing. The most widely used "French Polish" padding finish in the world. Specially formulated for use with Mohawk Blendal® Powder Stains. Compatible with most known finishes. In one operation, the stain and finish can be replaced on worn or bare spots. Also recommended for leather and vinyl. "Highlight" effects can be created on wood, leather or vinyl materials with this method. Lacover® Padding Finish imparts new life to leather, prevents cracking and drying out. Available in two solids. The higher the solid, the less time consumed to build up the finish to complete the job.

Dye Concentrates

Mohawk Dyes Concentrates are a solution of metal-complex dyes in a special solvent that offer the finisher many options for application. The Mohawk Dye Concentrates are designed to be let down with water for an economical, nonflammable stain or with alcohol and/or acetone for a fast drying, non-grain raising stain. They can also be used as a toner or "shader" by adding directly to water-based and most solvent based finishes to create a customized finish.

Not for exterior use. Note: This product contains VOCs in excess of 750g/l. Please consult local finishing regulations to ensure proper VOCs are maintained.

PIGMENT COLORED STAINS

Wiping Wood™ Stain

Semi-transparent, pigmented, solvent-based stain. Non-grain raising, fade resistant. Easy stir, soft-settling formula. Only 30 minutes drying time is needed before a lacquer sealer coat can be sprayed. Apply by spray, brush or cloth.

Pigmented Wiping Stains are easier to control because there's less lapping. An ideal uniforming stain when applied over dye stains prior to sealing. A dark color tone is easily lightened with Wood Stain Reducer S-15. This stain will never bleed through the finish. Virtually any finish can be applied over Wiping Wood™ Stain: lacquer, shellac, varnish, polyurethane, acrylics and many others. *Custom color matching available.*

Break-A-Way™ Glaze

Mohawk's Break-A-Way™ Glaze is the perfect product to easily add heavy hang up and detail accent color to ornate fine woodworking or cabinetry. Break-A-Way™ Glaze is spray or foam brush applied over a sanded sealer or finish coat and then allowed to dry to a chalky, powdered state that is easily removed from unwanted areas using light pressure with a synthetic abrasive pad to the desired look that you are after. Break-A-Way™ Glaze must be topcoated with a clear finish of your choice. (Note: Allow to dry 1 hour after removing excess if topcoating with a waterborne finish.) Break-A-Way Glaze™ will help you create dramatic, clean accent lines on any shaped surface. Break-A-Way™ Glaze may also be intermixed to achieve custom colors. You may never want to wipe a glaze again after trying Break-A-Way™ Glaze.

- Spray applied (20 PSI)
- May be used under or over water borne finishes
- Superior hang and build compared to solvent glazes

STAIN BASES & COLORANTS

Radiant Stain Base

Mohawk's Radiant Stain Base allows for the addition of dyes and pigments to achieve custom colors like our M547 Radiant series of stains. The new formulation has special additives and solvent blends to keep the dyes in solution and minimize float, allowing for better color consistency. Radiant Stain Base may be tinted with Mohawk Xpert® Colorants and Mohawk Dye Concentrates and are short filled to accommodate up to 12 ounces of colorant per gallon. Max color load is up to 8 oz of M844 Xpert® Colorant, and 4 oz of M561 Dye Concentrate. This combination of pigments and dyes will allow most any color to be achieved in a rich vibrant tone.

M540-1027	116 oz.
M540-1028	580 oz.

Xpert® Stain Base

Mohawk Xpert® Stain Bases are available in two formulas, medium solids and high solids to meet your custom color mixing needs. Xpert® Stain Bases may be tinted with Mohawk Xpert® Colorants, M844 series, and can accommodate up to 12 ounces per gallon (3 ounces per quart) to achieve custom color. Custom color blends of the Xpert® Stain Base are suitable for all interior wooden surfaces and may be sealed or topcoated with all Mohawk Professional Finishing System® (PFS) products. Note: Bases are short filled to accommodate colorant.

STAIN BASES & COLORANTS

Xpert® Stain Base - Continued

Medium Solids (for light to medium colors)

M540-1036 29 oz.

M540-1037 116 oz.

The following sizes are available as a custom item with a minimum order of 36 five gallon pails.

M540-1038 Medium Solids 580 oz.

M540-1058 High Solids 580 oz.

Xpert® Toner Base

Mohawk Xpert® Toner Base is a spray on and no wipe, low solid, vinyl tint base that is used with Mohawk Xpert® Colorants (M844's series) to create custom, semi-transparent pigmented toner colors. Toners are commonly used under a wiping stain or glaze to help establish an even background color by blending the natural variation of interior wooden surfaces to a uniform color. It may be used as a stand alone color that offers better hiding and more even tone than dye stains.

- Do not exceed more than 12 ounces per gallon of total colorant
- Perfect for blending multi-species of wood to a uniform color
- Can be used to create "no wipe" type stain colors

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M540-1077 116 oz.

Seal & Stain™ Pre-Stain/ Clear Stain Base

Use as a pre-stain treatment on wooden surfaces to reduce blotchy areas in soft woods before staining. Sand wooden surface with 150 or 180 grit sandpaper.

Apply by spray, brush or rag liberally over entire surface and remove excess by wiping with a cloth. Allow Seal & Stain™ Pre-Stain/Clear Stain Base to dry 15-30 minutes before applying any M545 stain color. Best results are achieved if the stain is applied within 12 hours. Use as a clear stain base with colorants to mix custom colors. Up to 20% by volume of Mohawk M500 or HUL 844 tint colorants may be added to Seal & Stain™ Pre-Stain/Clear Stain Base to create custom stain colors. Seal & Stain™ Pre-Stain/Clear Stain Base may also be added to any M545 wiping stain to reduce color intensity. *Note: Bases are short filled to accommodate colorant.*

Xpert® Colorants

Mohawk Xpert® Colorants are a professional line of colorants that can be added to the Mohawk Xpert® Stain Bases, stains, glazes and coatings products to create custom colors. The Xpert® Colorants are quality controlled and held to a strict color standard which means end users can expect repeatable results of their custom color formulations. Xpert® Colorants are available in 19 colors. Xpert® Colorants are also critical components of the Mohawk Xpert® Color Match System. 32 oz.

STAIN BASES & COLORANTS

STAIN BASES & COLORANTS

Base Concentrate

Pigmented Stain Colorant

A finely ground pigment in a high viscosity liquid form, free of fillers and extenders.

Recommended for making Pigmented Wiping Stains, Glazing Stains, Shading Lacquer and Tinting Lacquers. This pigmented colorant will mix with lacquer thinner, lacquer, glaze, lacquer sealers and synthetic finishes. Not recommended for water reducible, shellac or alcohol based coatings.

Custom color matching available.

Recommended Reducing Proportions:

- Wiping Stains: 20% Colorant and 80% Reducer S-15
- Glazing Stains: 20% Colorant and 80% Clear Glazing Liquid
- Shading & Tinting Lacquers: 1 to 3 oz. color per gallon of lacquer

FINISHER'S EDGE™ SOLVENTS

Finisher's Edge™ Solvents

Acetone

A virgin quality Acetone that is VOC exempt solvent and is used for reducing and clean up for many types of stains and some coatings without increasing the VOC content of the product. End users should consult the manufacturer's label or test to insure solvent compatibility.

- Virgin quality, not reclaimed
- Fast dry, zero VOC

FE200-001-1 Gallon
FE200-001-5 5 Gallon

Lacquer Reducer

Lacquer Reducer 2255 is formulated with only the highest quality solvents. The special blend helps prevent orange peel and helps provide good flow out. Recommended for use with all Mohawk nitrocellulose, pre-catalyzed lacquer and post-catalyzed lacquer coatings.

- Enhance flow & atomization
- Reduce solids content to control build
- Special blend provides proper evaporation rate

FE200-002-1 Gallon
FE200-002-5 5 Gallon

Mineral Spirits

Petroleum distillate; used for reducing oil base color concentrates, stains, and varnishes.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

FE200-003-1 Gallon
FE200-003-5 5 Gallon

Super Blush™ Retarder

Super Blush™ Retarder is a premium, very slow solvent for use where conditions of extreme high heat and humidity exist. This solvent used in small amounts will enhance the flow and leveling of all Mohawk nitrocellulose, pre-catalyzed lacquer and post-catalyzed lacquer coatings.

- Formulated for high heat and humid conditions
- Eliminate blushing
- Slowest retarding solvent available

FE200-006-1 Gallon

Naphtha

Petroleum distillate; used for reducing paste wood fillers, and some stains. Provides a faster dry for products that offer a choice of Mineral Spirits or Naphtha as a solvent. Also used as a clean-up solvent.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

FE200-007-1 Gallon
FE200-007-5 5 Gallon

No Blush™ Retarder

No Blush™ Retarder is a blend of slow evaporating solvents to be used with all Mohawk nitrocellulose, pre-catalyzed lacquer and post-catalyzed lacquer coatings. Small amounts may be added to correct most flow, blushing or leveling problems that are often seen during application in humid environments.

- Improves leveling
- Extends flash dry time
- Corrects common spray issue such as blushing, orange peel & overspray

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

FE200-0013-1 Gallon

Flash-Off™ Control Solvent

Flash-Off™ Control Solvent improves the flow of lacquers without substantially affecting the overall drying of the system. Only a few ounces of Flash-Off™ Control Solvent per gallon of lacquer are needed to eliminate over spray roughness in the finish.

- Improves system flow
- Eliminates over spray

FE200-014-1 Gallon

Shellac Reducer

A Denatured Alcohol Blend

Shellac Reducer is used to thin or reduce shellac based products, cleans glass and other non-lacquered surfaces. Shellac Reducer may also be used to clean fine bristle brushes after using with shellac based products.

FE200-015-1 Gallon

FE200-015-5 5 Gallon

Wood Stain Reducer - S15

A balanced formulation of solvents which insures the proper application and drying of Mohawk's M545 Wiping Wood™ Stains, Universal Colors and Base Concentrate™ colorants.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

FE200-017-1 Gallon

Denatured Alcohol

Denatured Alcohol is used to thin or reduce shellac based products, cleans glass and other non-lacquered surfaces. Denatured Alcohol may also be used to clean fine bristle brushes after using with shellac based products.

FE200-018-1 Gallon

FE200-018-5 5 Gallon

Silicon Wash (Toluene)

Silicon Wash is an excellent afterwash for removers. The wash helps remove silicone residue caused by polishes and waxes. Also minimizes fisheye problems created from silicone.

FE200-016-1 Gallon

**FINISHER'S
EDGE**

FINISHER'S EDGE™ SOLVENTS

Finisher's Edge™ Solvents

Wash Thinner

Wash Thinner is a solvent blend that contains a high percentage of acetone. It is suitable for effectively cleaning spray guns, brushes and other finishing equipment.

FE200-004-1 Gallon
FE200-004-5 5 Gallon

Butyl Acetate

Butyl Acetate is widely used in nitrocellulose based lacquers, readily dissolving the resin and imparting good flow properties. It is a urethane grade solvent and is widely used in 2-K polyurethane coatings to help balance flow and dry time.

FE200-005-1 Gallon
FE200-005-5 5 Gallon

Xylene

Xylene can be used to thin specified oil-based paint, lacquer, varnish, epoxy, adhesives, anti-rust, porch & deck paints and synthetic enamels. Xylene will also remove certain adhesives, and is an excellent solvent for cleaning tools and equipment immediately after use.

FE200-009-1 Gallon
FE200-009-5 5 Gallon

MEK

Methyl Ethyl Ketone (MEK) is a specialty thinner for epoxies, lacquers and adhesives, as well as polyester resins used in fiberglass repairs. MEK is slower drying than acetone and can also be used as an effective remover for ink, adhesives and contact cement.

FE200-010-1 Gallon
FE200-010-5 5 Gallon

Wax Wash™ Remover

Removes wax, oil and foreign materials from most surfaces in one application. Prior to applying a new finish or spot repair, clean surface with Wax Wash™ Remover. The presence of oil, wax or foreign materials on a surface can retard drying of a new finish which can be avoided by cleaning with Wax Wash™ Remover. Benzene, Naphtha or Alcohol by themselves will not remove all foreign matter as well as this product. Ideal to use on furniture, woodwork and appliances prior to refinishing.

FE200-012-1 Gallon

Conversion Varnish Reducer/Retarder

Conversion Varnish Reducer/Retarder is a blend of solvents that is specifically designed to lower viscosity and improve the flow of Mohawk Ultra® Clear Conversion Varnish or Mohawk Ultra® White Conversion Varnish coatings. Conversion Varnish Reducer/Retarder may also be used to flush spray guns and hoses.

FE200-011-1 Gallon
FE200-011-5 5 Gallon

Lacquer Thinner

Lacquer Thinner is formulated with only the highest quality solvents. The special blend helps prevent orange peel and helps provide good flow out. Recommended for use with all nitrocellulose pre-catalyzed lacquer and post-catalyzed lacquer coating.

Instrument Sealer

The Instrument Sealer is designed to complement Mohawk Classic Instrument and Piano Lacquers. This a single component sealer, no catalyst needed. It is an excellent choice for sealing instruments like guitars, pianos or any project that will be top coated with a nitrocellulose finish. While it is primarily designed as a system to go under the Piano or Classic Instrument Lacquers it may be used as a top coat where a matte sheen is desired. Instrument Sealer can be coated with any Mohawk nitrocellulose topcoat.

Excellent build, flexibility and sanding qualities

- Conventional VOC, nitrocellulose base
- 19% solids by weight
- Ready to spray viscosity
- Reduce with Lacquer Reducer 2255, M650-010

DuraCoat® Pre-Catalyzed White

Mohawk DuraCoat® Pre-Catalyzed White topcoats provide a premium quality finish that offers high moisture resistance, good flexibility, mar resistance and excellent durability. It is an outstanding finish for furniture, kitchen or bath cabinets. White topcoats offer high opacity and excellent coverage. When used over the Mohawk E-Z Vinyl® White Sealer, the system passes KCMA tests. Solids: 41%.

- No catalyst needed • Stir and spray • Resists yellowing

DuraCoat® II Post-Catalyzed White Lacquer

Same performance and quality as our DuraCoat® Pre-Catalyzed White Lacquer in a 275 VOC formulation! DuraCoat® II Post-Catalyzed White Lacquers are premium quality professional finishes for furniture, cabinets and millwork, which are very user friendly. DuraCoat® features high solids, moisture and mar resistance, good flexibility and are more durable than regular nitrocellulose lacquers. When used as a self-seal system or over our E-Z Vinyl® White Sealers. DuraCoat® II produces an exceptional finish system that passes KCMA testing. DuraCoat® II is also easy to mix. One bottle of the appropriate, pre-measured DuraCoat® II Catalyst (M612-301) is added to a single gallon or a 5 gallon pail. DuraCoat® II has a 6 month shelf life after the catalyst is added. Solids: 31%.

Tung Oil (Modified)

Mohawk Tung Oil (Modified) is a proprietary blend of non-break tung oil and propolymerized alkyd resin in a solvent system. Recognized as fast drying, hard, resistant to water, acid, alkali and mildew. One of the most durable of all natural oils. An ideal oil finish for new or stripped wood furniture. One coat achieves a low luster finish. Each additional coat increases gloss. Far superior to linseed oil, as finished wood will not darken with age. Tung Oil preserves the natural color of the wood. Surface scratches in a Tung Oil finish piece can be removed with steel wool and a small amount of Tung Oil. An occasional polishing with Mohawk's Lemon Oil Polish will preserve the beauty of the original finish.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M701-1596 Quart

M701-1597 Gallon

Danish Oil

Produces a natural oil finish fast, easy. Just wipe on, let penetrate and wipe dry. Polymerized wood finish, combines penetrating oils with resins to produce a natural oil finish on unfinished wood. One application seals and finishes wood. Never gums up in warm temperatures. Will not print and is nongreasy. Water spots, stains, burns and scratches are easily removed by buffing with 4/0 steel wool and Danish Oil. Natural.

Loctite® Vinyl, Fabric & Plastic Adhesive

Loctite® Vinyl, Fabric & Plastic Flexible Adhesive is a clear liquid formulated for repairing and mending flexible plastics such as vinyl seats, cushions, tarps and outdoor gear. The adhesive is highly flexible to withstand bending and twisting. It dries to a transparent and waterproof bond. It will not yellow or go brittle with age.

- Bonds paper, glass, metal, ceramic, leather, wood, fabric rubber and some plastics
- Waterproof so it can be used for interior or exterior applications
- Dries clear for invisible repairs
- Remains flexible and will not brittle or yellow with age

M850-2035 1 oz.

Aerosol Activator

The Aerosol Activator has been formulated so it can be used successfully in just about any situation you can think of. For best results, apply sparingly at a distance of about 11 inches from the target. Net Wt. 10 oz.

- Cures Instant Adhesive on white wood dents in about ten seconds without causing undue chlorois.
- Does not adversely affect finishes when gluing broken pieces and splinters on finished wood. It does not soften the finish or leave a telltale shiny spot.
- Activator will not prematurely cure the adhesive before it bonds the parts.
- Does not leave an oily residue.

M745-2012

CA Glue Tips

Thin, needle-like plastic tube attaches to the tapered tip of the CA glue bottle. Allows dispensing of glue into cracks and joints. This easily replaceable tip helps avoid clogging of the main tip on the bottle. Fits Hot Stuff Instant Glue Only.

Package of 12.

M745-3550 Pro Tips Extension Applicators

ADHESIVES

Precision Tips

Allows dispensing of glue into cracks and joints. For use with Mohawk adhesives 1 ounce and 2 ounce bottles. These do not fit Hot Stuff Instant Glue.

M745-1495 100/pk

Industrial Grade Instant Adhesive Cyanoacrylate Glue

Industrial grade for maximum bonding strength. The thin version wicks into tight places where flowing into and under is essential. Medium and Heavy are for semi-smooth surfaces. Gel viscosity is for filling and bonding porous surfaces. Non-whitening activator accelerates curing time. De-Bonder removes unwanted or excess glue. Glue any combination of wood, naugahyde, plastic, veneers, cardboard, rubber, ceramics, leather or vinyl. No clamping, instant set.

ADHESIVES, LUBRICANTS

ADHESIVES

Epoxy Adhesive

Two-part industrial grade adhesive which mixes in the dispensing unit tip. No mess, no measuring. Sets in 6 to 8 minutes. Clear and woodtone available. Wood tone can also be used as a filler. *NOTE: Mixing tips are not included with adhesive or gun and must be purchased separately.*

- M745-1431** Clear Adhesive - Net Weight: 2 oz/56.5g
M745-1433 Dispensing Gun
M745-1435 Epoxy Mixing Tips, 6", Pkg. of 12

Epoxy Paste Adhesive

High quality epoxy adhesive in paste form. This product is designed as a general purpose rapid set adhesive. Provides excellent results. Heavy enough to use without sagging or dripping on vertical surfaces. Can be pre-mixed with Blendal® Powders to match the finish being repaired. This Epoxy Adhesive can handle the toughest projects including badly splintered wooden parts. Two part formula mixes 1 to 1.

- M745-2125** Part 1 - Net Weight: 19.5 oz/554g
 Part 2 - Net Weight: 18.7 oz/530g

Spray Adhesive

Spray Adhesive offers a fast tack time, which enables general purpose bonding on a wide variety of substrates, high bond strength and may be used to create a temporary or permanent bond. It's unique formula prevents soak in of the adhesive on porous surfaces. Spray Adhesive does not contain methylene chloride and meets Federal and State VOC requirements. Net Wt. 10 oz.

M103-0195

Ground Hide Glue

Ground Hide Glue is a finely ground powder that is mixed approximately 50/50 with hot water, and kept warm during use. Although this glue has a quick grab, it still allows you to reposition the piece for an extended period prior to setting. Ground Hide Glue is used extensively in wood veneering and the cabinet making industry.

M745-4105 10.5 oz. 298g

WOOD SWELLER

Swel-Lock™

Actually swells wood for tightening loose chair rungs and mortise joints. It is not a glue or an adhesive.

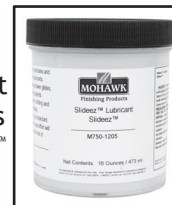

M745-4000 4 oz.

LUBRICANTS

Slideez™ Lubricant

Lubricates wood, metal or plastic. Due to semi-paste consistency, lubrication will last much longer. Drawers, windows and doors work easier with an application of Slideez™ Lubricant. This product will not stain or cake up, and is non-flammable. Does not contain silicones.

M750-1203 - Net Wt. 4 oz.
M750-1205 - Net Wt. 16 oz.

Silicone Dry Lubricant

Lubricates and prevents sticking of doors, drawers, locks, hinges, latches. Protects against corrosion and rust on tools, machinery, moving parts, conveyors, cutting blades. Prevents bunching and binding, speeds cutting, sewing and fabric flow in the textile industry. Unaffected by water, oil and most common solvents. Will not freeze, melt or flush off. Net Wt. 11.5 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.
M103-0177

E-Z Slip™ Lubricant

Greaseless wood lubricant for drawers, doors, windows and any wood fixtures that tend to bind. Reduces friction, prevents wear, and helps to increase ease of moving parts.

Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

UPHOLSTERY CLEANERS

Spot Cleaning Gun

Mohawk's Spot Cleaning Gun is of compact size and weight, which is so important with continuous daily use. It is made to fastidious specifications. This ultra-high quality airless electric gun pumps a spray of cleaning fluid powerful enough to quickly remove textile related stains such as grease, oil, make-up and screen printing inks. This gun will also remove flock lettering and transfers from any type of fabric, without leaving rings even on delicate silks and satins.

- Lightweight, easy to handle
- Virtually indestructible, maintenance free

M775-1000 Spot Cleaning Gun

Spot Remover

Mohawk Spot Remover is designed to easily remove oil and grease stains without harming delicate fibers. Spot Remover does not contain any chlorinated solvents. Spot Remover has a low odor, will not "ring" and dries quickly. Use on silk, satin, cotton, wool, taffeta, polyester, blends and all other fabrics. Net Wt. 10 oz.

- Spray on, let dry, brush off
- NOT designed for water and acid-based stains

M107-0505

WOOD FLOOR SYSTEM

Hydro Cleaner Wood Floor Cleaner

Hydro Cleaner Wood Floor Cleaner is a ready-to-use, environmentally friendly cleaner and wax remover for sealed laminate and hardwood floors. Hydro Cleaner should be applied by spraying a light mist of product over a 6 ft. x 6 ft. section (or smaller) of floor. After a short time, remove the product by working with a very light floor abrasive pad or a floor mop. For best results, rinse with clear water afterward. Heel marks and heavier dirt marks can be removed with a cloth soaked with Hydro Cleaner.

M730-30006 Quart

Hydro Care Wood Floor Protector

Hydro Care Wood Floor Protector is a water-based, environmentally friendly, wax maintenance product that can be used on all types of wood. Hydro Care should be applied in very thin coats and is intended to even up (refresh) the appearance in the traffic areas of the floor while providing a thin, soil resistant protective coating.

M730-30016 Quart

KCCP Disinfectant

KCCP is a sanitizer that been approved by the EPA to effectively kill human coronavirus. This is a water-based product that is very safe to use and highly effective.

KCCP features and benefits:

- Safe to use on ALL surfaces
 - No wipe/rinse
- 40003 KCCP Disinfectant** Drum (55 Gallons)
40005 KCCP Disinfectant Pail (5 Gallons)

**Discontinued - Available while supplies last.*

MOHAWK Professional Leather System

Identifying different types of leather finishes and determining what touch-up and repair products are suited for each can be a difficult task. To make it easy, all Professional Leather System products are coded to help you choose the correct products. Below you'll find simple descriptions of different kinds of leather, and their corresponding Codes. All products on the following pages are coded to make it easy to match leathers with the appropriate products.

Aniline (also called Natural) (A)

The surface of this leather has been colored with transparent dyes. This transparency is similar to looking at a piece of stained wood, whereas the grain stays natural and visibly distinguishable. Aniline leather will have imperfections and differences, just as fingerprints are different for each individual. This difference is nature's signature and assurance that every hide is one of a kind. These leathers have minimal surface protection and thus tend to show the effects of usage such as wear, scratches, UV exposure, etc.

To maintain the natural beauty of aniline leather it is mandatory to establish a routine of cleaning and protection. Leather Protector should be applied right at the beginning of usage. Cleaning and protection should then be done every six months, even more often on high traffic areas.

Semi-Aniline (A)

This leather is covered with a lightly pigmented coating on which transparent and brilliant colors are oversprayed to reconstruct the natural appearance of the leather. Since the coating is thin, it offers only minimal protection, so an application of Leather Protector is recommended.

Pigmented or Top Coated (P)

This is the most widely used finishing technique. The finish consists of an opaque basecoat of pigmented resins followed by a protective topcoat. The natural color of the leather is completely covered. Therefore, pigmented leather can be identified by its uniform color. It is ideal for high use items like furniture or automotive seats, especially when you want your kids to use them "trouble-free". With the aid of Mohawk Professional Leather Care products, these leathers are easily maintained. If restoration is necessary, full re-coloring is possible

Pull Up (X)

Fashions come and go, but waxy and oiled leathers are here to stay. These two related types of leather are called "pull up," a phrase originally used to describe the effect on a type of leather also known as "Timberland" after that well-known footwear producer made this type of article famous. These leathers lighten when stretched, bent or "pulled up." They are categorized as natural because they do not have a thick topcoat.

Nubuck (N)

This leather is actually aniline leather that has been sanded to give it a fine, velvety surface. It should not be confused with suede, which is the flesh side of leather. The look and feel of nubuck leather is incomparable for low use applications where elegance is desired. To properly care for nubuck, it is important to adhere to a routine of cleaning followed by protection. This regimen should begin as soon as the piece is put into use and continued at regular intervals throughout the life of the piece. MOHAWK has specific products for the care and preservation of nubuck leather. It is important to use these specialized Nubuck products on Nubuck leathers.

Bycast (B)

This is a completely different system of finishing or enhancing leather (usually split leather or heavily buffed leather). It maintains a very consistent thickness and softness over the entire area of the leather, not only on any given hide but from hide to hide as well. The technique consists of creating the finishing film on a continual support of release paper. An adhesive is applied to the film, and then the film is pressed on the leather. The finished leather is then removed from the release paper displaying a perfectly uniform surface. Often, when stretching bycast leather, you can see a lighter color that reverts back to the original color once the pressure is released. This is sometimes used to identify bycast leathers.

PROFESSIONAL LEATHER SYSTEM

LEATHER CARE

Leather Cleaner II

Mohawk's Leather Cleaner II is a mild water-based solution gently and effectively cleans leather surfaces from common household stains. It is pH balanced for leather and formulated for enhanced leather cleaning capabilities. Safe for all top coated and aniline type leathers. Not recommended for use on unfinished leathers like suede or nubuck.

M850-10024 8 oz.

Microfiber Cleaner

Microfiber Cleaner is a totally solvent-free cleaner for delicately and efficiently removing dirt and water-based or greasy stains from microfiber.

M850-10054 8 oz.

Leather Clean and Renew (A,B,P,X)

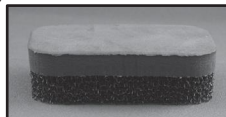

Leather Clean and Renew wipes safely clean and condition pigmented (top-coated) leathers. Use Leather Clean and Renew periodically to keep your leather clean, leaving a pleasant and renewed feel. Apply once a week for maximum efficiency. Comes in a handy dispenser.

M850-1019 40 Sheets

Nubuck Reviving Sponge (N)

Nubuck Reviving Sponge is a dry sponge for bringing back the typical velvet (writing) effect of nubuck and suede leathers.

M870-9202

Leather Guard Protector (A,P)

Leather Protector is a highly advanced product designed to assist leather in repelling water, oil, and alcohol based stains. It is perfectly suited for natural grained leathers because it doesn't change the feel or the color of even these sensitive leathers while adding stain resistance. For topcoated leathers, the application of Leather Protector will ease the removal of difficult stains like ink, lipstick, mustard, newspaper print, and blue jean transfer. Leather Protector forms a transparent, breathable barrier that will improve stain resistance and efficiency of cleaning.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-10034 8 oz.

Leather Protector Wipes

Quickly and easily apply an invisible barrier on leather surfaces and furniture to help repel oil, alcohol, protein and water based stains. Helps prevent skin oils and acids from damaging leather surfaces over time. Should be used in combination with Mohawk's Leather Cleaner.

M850-10069 40 Sheets

Discontinued - Available while supplies last

Leather Revive (A,B,P,X)

Leather Revive is a highly advanced product designed to revitalize Aniline, Bicast, Pigmented and Pull-Up leather that has become dried out, stiff or is squeaky. Leather Revive will renew and restore pull-up effect leathers and improve scratches caused by fingernail marks, scuffing, etc. Apply Leather Revive and when dry, apply Leather Protector to renew protection level.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-10074 8 oz.

LEATHER REPAIR

Ink Remover (P)

Ink Remover is a product specifically made to remove recent ink marks or lipstick stains from top coated leathers or vinyl surfaces. "Recent" is defined as 3-5 days. Permanent markers contain solvents to increase the penetration of the dye and will not likely be removed.

M850-2015 1 oz. Stick

Leather Degreaser (A,N,P)

Leather Degreaser effectively removes accumulated or saturated oil stains from leather. Over time, hair or skin oils can absorb into the leather and leave a stain. This often appears as a darkening effect in the contact areas. Leather Degreaser is formulated to penetrate into the leather, absorb the stain, and lift it into an easily manageable powder.

M850-2018 13.5 oz.

Discontinued - Available while supplies last

Scratch Remover (A,X)

Scratch Remover is a simple solution for healing and blending surface scratches or rubs on natural leathers. It helps restore the surface color as well as blend the damage. It is very effective on fingernail scratches in aniline leather. For some leathers, Mohawk Leather Revive may provide the best solution. Scratch Remover is not intended for pigmented or nubuck leathers.

M850-2060 .50 oz.

PROFESSIONAL LEATHER SYSTEM

LEATHER REPAIR

Deep Cleaner (P)

Deep Cleaner is a very strong cleaner for topcoated (pigmented) leathers. It performs a powerful cleaning action by removing all types of stains, including oily and greasy stains. It is very effective on newspaper, denim dye transfer, and dye transfers in general.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-20164 8 oz. [°]

[°]Discontinued - Available while supplies last

Repairing Paste (P)

Repairing Paste is a flexible adhesive that has enough body to fill as well as adhere damaged areas, particularly surface abrasions. It is especially effective where the leather has several small cuts that are raised like "scales." After drying, it is flexible and difficult to detect. For deep cuts, use Mohawk Leather Glue.

M850-2034 2 oz.

Leather Glue Water Based (A,B,P)

Leather Glue is a flexible, strong adhesive formulated specifically for repairing flaps, abrasions, and minor cuts. It can also be used to repair larger cuts in conjunction with the Woven Fiberglass Fabric. Refer to page 71 for the Woven Fiberglass Fabric.

M850-2033 .50 oz.

Leather Repair Glue

Leather Repair Glue is an adhesive for repairing flaps, abrasions and minor cuts. Add leather color or topcoat to assure the durability of repair.

M850-2038 .50 oz.

Mender (P)

Mender is used to repair scratches and abrasions on pigmented leathers from which the finish has been removed. Use a spatula to fill cracks and scratches with Mender. (Mender can be colored with a maximum 10% addition of Touch Up Pigment.)

M850-2037 2 oz.

E-Z Flow™ Leather Markers

E-Z Flow™ Leather Markers are water-based and offer breakthrough technology in the design of a new valve and applicator system. Just a couple of pushes on the valve, and the marker is ready to use. The sponge applicator flows effortlessly to spread color evenly every time, no matter how large or small of a spot is being restored. The color lays flat, with no ridges between the rows, blending seamlessly with the surrounding area. The screw-on top provides an air-tight seal so the applicator stay wet and ready for your next repair.

Leather Repair Aerosol System

The Leather Repair Aerosol System contains aerosols used to color over damages on pigmented leather (also known as top coated) where there is color loss or the leather has been repaired. The aerosols are designed to enable you to match most of the leather furniture that is popular today. They are especially effective at repairing two-tone finishes which are otherwise so difficult to match. The system includes Basecoats for matching background colors, Toners to add color over the Basecoats and to apply the stippled effect in two-tones, Color Adjusters for fine-tuning the color of the repair, and Leather/Vinyl Finish™ to adjust the sheen. ⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

Applies to product(s) below.

M109-0024

Contents:

Leather Repair Basecoats - Coppertone, Light Tan, Warm Brown, Burnt Umber, Cool Brown, Burgundy, Black, White, Beige, Medium Brown, Red, Kinsey Dark Brown, Light Grey, Charcoal Grey,

Leather Repair Color Adjusters - Orange Brown, Red, Yellow, Blue, Green, White, Black

Leather Repair Toners - Warm Brown, Cool Van Dyke Brown, Black

Leather Repair Basecoat (P)

Leather Repair Basecoat aerosols are opaque, pigmented finishes that are formulated specifically for use on pigmented leather and vinyl. They are used to hide repairs such as cuts and scrapes where color is lost or the color has been adversely affected by the repair. They are also used to hide fillers like L/V Repair Heat Cure Compound and Mender. Basecoats are available in 18 colors that target the most popular leathers used on furniture today. Pick the color that is closest or slightly lighter and then use the other Leather Repair aerosols to complete the color match. Net Wt. 13 oz.

- For use on pigmented leather (also called top coated leather) and vinyl
- Not for use on aniline, pull up, nubuck, or suede leathers
- Used to begin the coloring process over damage
- Highly opaque for fast coverage
- Formulated for flexibility
- Creates a long-wearing finish
- Fade resistant, fast drying

PROFESSIONAL LEATHER SYSTEM

LEATHER REPAIR

Leather Repair Toner (P)

Leather Repair Toner aerosols are translucent finishes that are formulated specifically for use on pigmented leather and vinyl. They are used to bring the color of the Basecoat aerosols closer to the color of the leather or vinyl, similar to the way wood toners are used to blend wood colors. Most of the time, the toning process will darken the color of the Basecoats. Also, applying Leather Repair Toners in short bursts will create the stipple effect present in two-tone leathers. Net Wt. 13 oz.

- For use on pigmented leather (also called top coated leather) and vinyl
- Not for use on aniline, pull up, nubuck, or suede leathers
- Use to alter the tone and shade of the Basecoat aerosols (generally to darken) to bring the color closer to the leather or vinyl
- Translucent color
- Use to create stipple effect of two-tone leather
- Formulated for flexibility
- Creates a long-wearing finish
- Fade resistant, fast drying

Leather Repair Color Adjuster (P)

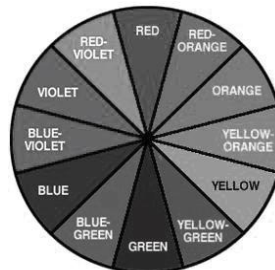

Leather Repair Color Adjuster aerosols apply transparent color to pigmented leather and vinyl. They are used to fine-tune the color of leather repairs on which Leather Repair Basecoat and Leather Repair Toner aerosols have already been applied. They can be used immediately after the Basecoat to bring the hue in closer accord to the color of the leather. They can also be used after the application of the Toners to make an adjustment. The principles of color theory should be observed in choosing which Color Repair Adjuster(s) should be applied. Clear Leather/Vinyl Finish™ aerosols are used at the end of a repair to adjust the sheen and offer greater protection. Net Wt. 13 oz.

- For use on pigmented leather (also called top coated leather) and vinyl
- Not for use on aniline, pull up, nubuck, or suede leathers
- Use to alter the hue of the Basecoat and Toner aerosols to adjust the color closer to the leather or vinyl
- Transparent color, formulated for flexibility
- Creates a long-wearing finish
- Fade resistant, fast drying
- See usage at <http://www.youtube.com/watch?v=1boQhuGBQes>

Touch Up Pigment

Touch Up Pigment is a single step product that combines fixation, adhesion, light filling properties, pigment, and topcoat all in one easy to use product. It exhibits high performance specs for dry rubbing, wet rubbing, and flexibility. It is the final step in covering repairs on pigmented leathers with color and/or sheen adjustment. Most often, it is used over a damaged area that has been repaired with Mohawk Leather Glue Water Based or Repairing Paste.

Spew Remover (A,B,P)

Occasionally, fat liquors used during the tanning process or natural animal fat can migrate to the surface leaving a white film. This film can be wiped away but will reappear. Spew Remover displaces the film and penetrates into the leather to prevent reoccurrence, because it has properties to lock the fats into the leather.

Express Kit Program - Touch-Up And Repair Kit

Mohawk's "Touch Up And Repair Kit Program" makes it possible to design an individual Touch-Up and Repair Kit. You can order as few as 12 kits for your use or to provide to your customers to handle most minor touch-up requirements. Select from 23 different configurations. In addition to the products you select, each kit contains a Scotch Brite Pad, Plastic Leveler Card, and Tri-lingual instruction sheet. Each kit's outer label can be personalized with three lines of text so you can show your company name, part number, color name, or any information you want to appear on the label.

HARDWARE & TOOLS

ABRASIVES PADS

Micro Mesh

Very fine grade abrasive pads in 7 grades used for fine scratch removal. Capable of polishing a finished surface to a semi-gloss and even a high gloss surface. Commonly used on polyester or acrylic surfaces to achieve super-high gloss. 4 per pkg., 3" x 6".

M905-0401	4000 grit		

^oDiscontinued - Available while supplies last

Steel Wool Pads

Flexible alternative to sanding. Perfect for curved and ornate woodwork. Suitable for use with most strippers and refinishers. Removes old finishes without harming original surfaces. Recommended for use with most stains, lacquers and protective finishes. For cleaning and removing rust from metal surfaces. Restores brass, copper and bronze. Disposable. Sold 16 per pack. Approximately 3½" wide.

M909-0302 ^o	16 Pack, 000 Extra Fine grit, smoothing and polishing
M909-0303	16 Pack, 0000 Super Fine grit, finishing

^oDiscontinued - Available while supplies last

Steel Wool

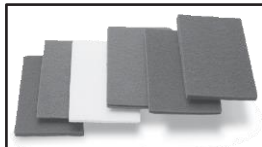

Layer built. 5 lb roll. 4/0. Approximately 3½" wide. Length: 125 ft.

M909-0540

Non-Woven Hand Pads (Synthetic Pads)

Your best choice for general purpose cleaning and finishing a variety of surfaces. Fast cutting non-woven hand pads leave a more consistent finish than steel wool, wire brushes, and other non-woven hand pads. Can be used with water or solvents. Will not rust. Use as a final step when generating matte finishes on some solid surface countertops. 6" x 9" pads.

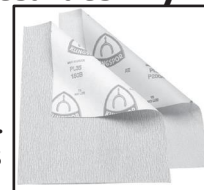

M909-7401	White, light duty cleansing pad, non-abrasive
M909-7412	Green, general purpose hand pad, very fine

ABRASIVES—SANDPAPERS

Lightweight Silicon Carbide Stearate Dry Sandpaper

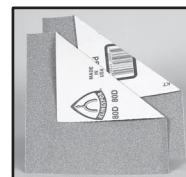

B-weight Silicon Carbide paper, resin over glue bond, semi-open coat top-coated with Zinc Stearate dry lubricant. Suitable for sanding contoured surfaces or flat surfaces by hand, with sanding blocks, or on vibrating sanders. Ideal for sanding primer, paint, bare metal, and rust; or in woodworking, for sanding sealer, wash coats, bare softwoods and hardwoods, and between coats of furniture finishes. 9" x 11" sheets. 100 sheets per pack.

M906-1000	P150B grit	M906-1008	P280B grit
M906-1002	P180B grit	M906-1010	P320B grit
M906-1004	P220B grit	M906-1012	P400B grit

Garnet PS 10

Premium Garnet material use in hand, fine finish type sanding, or sanding undercoats of finishing materials. Offers a "softer" cut that leaves a smoother surface. 9" x 11" sheets. 25 sheets per pack.

M906-1300	P80D grit	M906-1304	P120C grit
M906-1302	P100C grit	M906-1306	P150A grit

Open Coat Aluminum Oxide Sandpaper

Aluminum Oxide A, C & D-weight paper material. An extremely tough and durable synthetic abrasive. For sanding wood, metal, plastic, fiberglass and painted surfaces. Produces a soft, consistent finish at a budget price. 9" x 11" sheets. 25 sheets per pack.

M906-1200	P80D grit	M906-1206	P150C grit
M906-1202	P100C grit	M906-1208	P180A grit

BED HARDWARE

Bed Hooks

Bed Hooks will convert your present bed headboard into a Hollywood bed in a few minutes without drilling holes in the headboard legs. Slip into the slit of the headboard legs in place of the former bed rails. Simply attach metal bed carriage to Bed Hooks with bolts provided. Nickel anodized finish.

- M933-0060 1 pair

Adapter Plates

Adapter Plates enable your customers to convert old beds to modern mobile Hollywood beds. Takes care of the difference between the width of the customers headboard and the spring and mattress. Made of heavy gauge steel. Offers more than the usual amount of vertical height adjustment by having two sets of slots for connection with any metal bed frame. Nickel anodized finish.

- M933-0061 1 pair

Bed Rail Tighteners

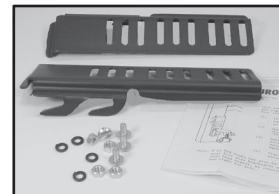

Made of corrugated steel. Slip over end of bed rail hook; will take up all slack between bed rails and bed post. Also prevents squeaks.

- M933-0100 Package of 12

Bed Hook

For floating headboard off the floor. Hooks in-and-under standard pins in headboard. Easy installation in a few seconds with no measuring or drilling. No bolts showing to mar walls. 12 horizontal slots for desired height off floor, and side to side adjustments. One piece heavy gauge steel. Each pair conveniently packed with instructions and necessary hardware. For QUEEN SIZE BEDDING (60"). Can be used with FULL SIZE HEADBOARD: simply switch right bed hook to left leg and left bed hook to right leg.

- M961-0070 1 pair*
*Discontinued - Available while supplies last

Swing Hinge

Attaches bed to headboard. One pair.

- M908-1001

Display Rails (short bed)

For displaying and storing beds. Two styles. 6". No bolts supplied. Bolts available on page 93.

- M933-0063 Hook on
M933-0064 Bolt on

M903-8674	7/8" beige	1/4" thick	400 per box

Plastic Drawer Glide

Made of hi-flex beige plastic. Excellent abrasion resistance self-lubricating, provides best gliding properties, cannot rust. Rectangular.

M903-8814 1/2" x 3/4" x 3/32" 100 per box

HAMMERS & MALLETS

Tack Hammer

Magnetized tip, fully polished 3-3/4" square head. Hickory hardwood handle. 5 oz. head weight. 10" total length.

M951-0417

28 oz. Mallet

Heavy white rubber mallet with non-mar surface. Superior quality, limited bounce. White hardwood handle. 2-1/2" diameter face, 4-1/2" diameter head. 14" long handle.

M957-1975

HEAT GUNS & BURN-IN TOOLS

Micro Therm™ Flameless Heat Gun

The Micro Therm™ Flameless Heat Gun is a hand held self-igniting flameless heat gun and is powered by a refillable fuel cell. The Micro Therm™ is the perfect heat source for the Quick Fill® Burn-In Stick.

- Hand held, automatic electronic ignition
- Patented safety lock
- Produces 1300°F flameless heat
- Refillable fuel cell-disposable butane lighter
- Compact ergonomic design, butane not included

M900-3215

M110-9005 Butane Refill

Small Heat Iron

The Small Heat Iron with round flat head and heat tube:

- Improved 100% Iron tip
- Enables technicians to apply hot air to the repair area by blowing gently through the plastic tube
- A circular pad is mounted on the iron for direct heating of graining paper or grain mold
- Takes little space in a repair kit for service calls, yet can be used with Heat Cure Compound for graining and curing techniques
- Very economical

M870-5710 Heat Iron, Small w/Round Flat Head & Heat Tube

HARDWARE & TOOLS

HEAT GUNS & BURN-IN TOOLS

Heat Gun w/Tip

Furnished with a specially designed tip which fits over the nozzle of the gun to focus heat flow to a 1/4" diameter. Use to cure Mohawk's Vinyl Repair Compound. Excellent tool to re-flow a repair for re-graining. New higher watt element cures compound faster. Use to repair small cuts, tears, punctures, abrasions and splits. 475 watts.

M870-8600 Heat Gun w/Tip

MASKING TAPE

Painter's Mate Green Masking Tape

Premium Grade. Designed for use on all paints and many lacquer and varnish coatings. This tape is recognized by and known for its quality performance and it's green color. It leaves clean, straight paint lines with less edge bleed. Does not lift, curl or transfer adhesive with most lacquers. This tape can also be used on rough, uneven or hard to stick surfaces. (DO NOT USE on easily damaged surfaces, such as: wallpaper, wallboard, ceiling tile, uncured coatings or other delicate surfaces).

M910-2001 Width: .945"x 60 yd; 24mm x 55m

HARDWARE & TOOLS

MIRROR SUPPORTS

Mirror Supports

Our Mirror Supports are the highest quality on the market. Being 100% American made they have the following benefits:

- Stronger than any other fastening device for mirrors on the market
- Made of 18 gauge steel, which is 37% stronger than the 20 gauge imports
- Will not bend or twist under heavy mirror weights ensuring durability and safety

Mirror supports allow for desired adjustment up or down. Screws are included for mounting. No brackets necessary. 12 per pack.

M999-1014 4' unassembled
M999-1015 5' unassembled

MISCELLANEOUS

Compound Tool

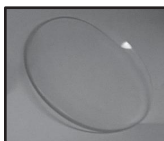

Used to push the backing fabric into and under damage. Also used to apply clear L/V Repair Compound over the backing fabric in the damaged area.

M870-9200

Match-All™ Tinting Glass

M900-4602

Pipettes

Use pipettes disperse droplets of color onto mixing glass. Allows user to control drops to achieve specific color.

M900-4603 50 Pipettes

Staple Remover

#120-1/2 Use to remove staples and tacks. Durable. Easy to use. Greater angle facilitates lifting rather than knocking out of staples.

M941-0121

Gripper Tack Puller

Manufactured with alloy steel for strength. Precision ground and sharpened. Heat treated for durability.

M951-0418 7" length, 7/16" point size

Mohawk Leveler Card

Leveler Card can be use with Quick Fill® Burn-In Sticks to level burn in or to scrape excess burn in.

H898-0002

Wet Mil Gauge

For measuring wet film thickness of lacquers, enamels, paints and many other wet coatings that are sprayed, dipped or brushed on a smooth surface.

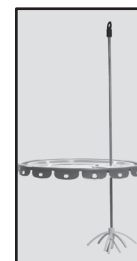

M900-1040

18" Stir Whip Mixer

Revolutionary design allows the user to quickly mix or stir any material; liquids, paints, glues, epoxies, compounds and concrete.

- Designed to use in large containers
- Flexible fingers fit through a 2" opening without trimming
- Easy cleaning

If using with lacquers or other flammable liquids use pneumatic air drill. Sparks from electric drill motor could ignite flames.

M972-1010

Grain Filler Spreader & Leveler

This combination tool is 6" in length with a single curve profile and square corners. It is a double edged tool that is designed to quickly and easily apply grain fillers. The comfortable profile allows easy use of each edge, the flexibility allows for maximum conformity. Use the rigid edge for heavy applications and the flexible, thin rubber based edge for lighter applications. It also greatly aids in the removal of excess filler, thus reducing sanding time. This tool features low memory and low glide.

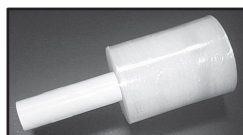

M902-3010

PACKING / SHIPPING / DELIVERY

Stretch Film

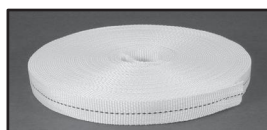

Replaces storage boxes, tape and twine. Wraps skin-tight. No adhesive residue. Protects against tarnish, rust, weather, insects, rodents, and scratches. Use for moving, shipping, and storage.

M910-2006 5" x 1000'

M960-6100

Respirator Filter

Organic Vapor Cartridge/Particulate P95 Filter R6022, consists of 1 pair of organic Vapor Filter 6001 and 2 pair of Organic Vapor Cartridge 5P71, P95.

M960-6101

SHEARS

Industrial Shears

Bent trimmer shear. High quality. Each blade forged of one piece. Inlaid blades. Black handles. Polished blades.

M945-0427 10" long, 4-3/4" cut. 12 oz.

Bent Trimmers

Right hand. Contour plastic handles for comfort. "Dura-Sharp" edges.

M945-0429 8" length

SHELF SUPPORTS

Shelf Support, Vinyl Coated Foot

Shelf support for glass shelves with riveted pin and vinyl covered base. 3/4" base, .245 pin.

M930-1783	Brass plated	100 per box
M930-1784	Antique copper	100 per box

Shelf Support, Sturdy

Shelf support with riveted pin and securing hole. 3/4" base, 1/4" pin, 3/16" hole. Antique copper finish.

M930-1789 100 per box

SPRAY EQUIPMENT & ACCESSORIES

Pressure Unit Spray Tool

No hoses, compressors, or wires. Sprays any thinned liquid. Portable industrial sprayer without the usual encumbrances. Utilizes the same principle as commercial spray guns. Replaceable power pack contains a liquid propellant that will spray up to 30 ounces of paint or other sprayable material. The precision preset spray head assures a perfect spray pattern. Snap on spray head improved to include 3 interchangeable spray heads: Red - Heavy, White - Medium, and Blue - Fine. Ideal for maintenance and production jobs throughout the shop. Extra jars and caps available. Not recommended for waterborne paint.

M110-0903	4 ounce jar w/ cap
M110-0906	Snap-on spray head

**Discontinued - Available while supplies last.*

Power Pack

Make your own aerosol. Versatile-use for stains, lacquers, paints, varnishes, shellac, cleaners, polishes, and epoxy coatings. Power Pack will dispense 16 oz. of liquid with the same fine spray as aerosol cans. For Heavy Spray.

M110-4950	Power Pack w/ 1 ounce jar
M110-4949	Power Pack w/ 6 ounce jar

Power Pack Replacement Bottles w/Caps

M110-4952	1 ounce jar w/ cap
M110-4953	6 ounce jar w/ cap

Airbrush Propellant

Net weight - 6 oz.

M110-3006
**Discontinued - Available while supplies last*

TABLE HARDWARE

Leaf Leveler

Metal supports for table insert leaves.

UPHOLSTERY REPAIR & SUPPLIES

Dust Cover Backing Fabric

Black Texspun. 100 yard roll, 2 oz.

M980-3198 36" wide

M980-3199 41 1/2" wide

Dust Cover Backing Fabric

White. 100 yard roll, 60" wide. 1.50 oz.

M980-3200 Non-Woven, Elite 150

Upholstery Webbing: Jute-9

M959-1001 3 1/2" 72 Yard, Roll, 9 lbs.

Nylon Thread

Assorted set-up: white, black, brown, beaver, light honey, red, navy and beige.

M958-0800 8-2 oz tubes

Nylon Tufting Twine

Super strong quality. Individually boxed.

M958-8623 1/2 lb. tubes

Needle Assortment, 5 Piece w/Case

Assortment of professional utility needles for upholstery repairs. Useful in every shop, but challenging to find through regular suppliers. Made in England. Each case contains: 2 Curved upholstery needles, 1 Special bent needle (for sewing up fowls), 1 awning or canvas needle (excellent for sails), and 1 carpet/heavy material needle.

M927-00K1

Curved Needle

1/2 Round. 501 Round Point.

M927-5152 2" length

M927-5153 3" length

Tufting Needle

Time saving hollow upholstery needle with tufting clasp eliminates the need to turn fabric to be tufted. Reduces soiling from repeated handling. Maintains straight seams. Requires less manual effort and fewer stitches. Button tufting also made easier. 12" length.

M927-T606 Tufting Needle

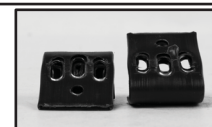

M927-C607 Tufting Clasps

Spring Clip-EK

250 per box.

M956-2447 7/8 x 7/8

Magnifier

Use to examine and identify grains and damage in leather and vinyl.

M870-9204^o

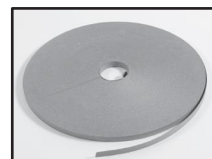

^oDiscontinued - Available while supplies last.

Tacking Strip

Economy 1/2" wide tackless cardboard tacking strip. Approximately 400 yards per platter.

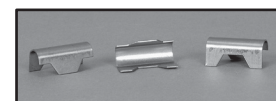

M956-5000

No. 3 Metal Spring Clip

For fastening edge of wire to spring. To be used with spring clip pliers.

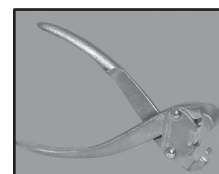

M956-2448 250 per box

Spring Clip Pliers

A special plier for setting three prong spring or edge wire clips. For use with No. 3 Metal Spring Clip.

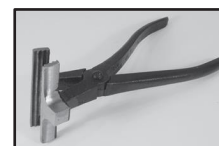

M956-2445 7" long, 16 oz.

Webbing Pliers

Hammer jaw acts as a lever if a strong pull is required. Excellent for stretching fabric and canvas. Can also be used as a hammer.

M956-2500

HARDWARE & TOOLS

WEDGES

Furniture Wedges

Crooked dresser? Rocky table? Cabinet slanted? Not a problem with the Furniture Wedge! Easy to use, snap-off design has 8 wedge tabs each, ranging from 1/16" to 5/16" thick.

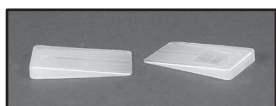

M903-9912 25 per package

Wobble Wedges

Interlocking shims perfect for leveling or installing: tables, bookshelves, appliances, cabinets, tubs and sinks, water heaters, flooring and tile, toilets, heating and AC...and much more!

M903-9913 75 per box

TRAINING

Interactive DVDs

Set of 3 DVDs - Wood, Leather, Finishing. See under each individual DVD for description of each.

M900-0040

Wood Touch-Up And Repair

The Mohawk Wood Touch-Up and Repair Interactive Training System is designed to teach you the most up-to-date wood touch-up and repair techniques offered in the industry. This interactive DVD will provide you with instructions in: damage analysis, filling of damages, replacing color, grain replacement, spot finish application, sheen adjustment, scratch removal, finish care and much more. Available in Chinese and Spanish.

M900-0010 Wood Touch-Up & Repair
M900-0050 Chinese - Wood Touch-Up & Repair
M900-0060 Spanish - Wood Touch-Up & Repair

Leather Touch-Up, Repair, Refinishing & Maintenance

The Mohawk Leather Touch-Up, Repair, Refinishing & Maintenance Interactive Training System is designed to show you step by step procedures and techniques for repairing many types of damage and restoring furniture to "good as new" condition. This interactive DVD will provide you with instructions on: filling damage, producing duplicate grain patterns, color matching and application, upholstery repair, spot cleaning and much more. (90 min)

M900-0020

Discontinued - Available while supplies last

Professional Finishing System®

The Mohawk Professional Finishing System® Interactive Training System is designed to show you how to produce today's most popular finishes with our new Professional Finishing System® products. By following the steps shown in this interactive DVD, you will be able to confidently recreate the finishes using an assortment of Mohawk's different finishing products. (156 min)
